CAMPBELL

This is the Month

We can expect warm weather and the comfort you can have in a hammock is worth investigation.

We Have

Hammocks for the baby, hammocks for the middle aged, hammocks for the young and for the old folks who need something different. In fact, the wants and purse of everyone can be suited in our remarkably complete line. The largest in the county.

In Exclusive Design and Finish:

Prices		
\$1.25	\$2.25	\$4.00
\$1.40	\$2.40	\$5.00
\$2.00	\$3.65	\$6.00

In colored canvas, \$1.50 each Canvas couches, \$6.25

Baby safety swings, \$1.50 each

THE FARMERS

UNION

Phone Red 101

Campbell, Calif.

WE RECOMMEND THIS

\$11,500.00

50 Acres Six room house, 2 large barns, well, windmill and tankhouse. Family orchard, 7 acres 1 year old Blenheim cots, 1 acre cherries, same age. Balance hay land. Very fine hay or orchard land. Last year raised 80 tons of hay. Is surrounded by thrifty and productive orchards. Will consider small acreage near Campbell in part payment. If in bearing orchard would be worth \$20,000 or \$25,000.

RECENT WEDDINGS

The Morris-Lloyd Wedding

From a Klamath Falls, Oregon, paper, we clip the following notice of the marriage of Miss Floy Lloyd, who is so well known to Campbell people:

"Married at the court house in Klamath Falls, at 5 o'clock p. m., on Tuesday July 11, 1911, Miss Floy, of California, and Mr. Frank R. Morris, of Poe Valley, Klamath County, Oregon, County Judge Will S. Worden officiating.

"The bride looked very pretty in her wedding gown, while the bridegroom, always a handsome fellow, was none the less so on this occasion. Mr. Morris is well known and universally respected by the people in the eastern part of the county, where he has resided for several years."

Mrs. Morris is the daughter of Mr. and Mrs. J. C. Lloyd and for many years resided in Campbell, where she has many friends and is highly esteemed.

It seems that the matrimonial market is not very brisk in that new country, and in a letter to her parents here Mrs. Morris relates some of the experiences they had in trying to find some one who could perform the ceremony. They had planned to be married by the Methodist minister, but after a long hunt they found the parsonage only to learn that the parson was away fishing. They then sought the home of the Christian minister and found that he also had gone fishing. The next hunt was for the Baptist minister, but it was learned that his flock had become so small that he had sought other fields of labor. As a last resort the young couple sought the local judge, who said that he had never performed a marriage ceremony and was not informed as to the legal and ceremonial forms due on such occasions. The judge finally mustered up courage and, with no little embarrassment, improvised a service which was "thoroughly original and remarkably short," as Mrs. Morris wrote.

Archibald-Speagle Wedding

The marriage of George Chester Archibald and Miss Lelia Murrel Speagle occurred last Sunday afternoon at 2 o'clock at the home of the bride's parents, Mr. and Mrs. George Speagle, on Hopkins avenue. The Rev. G. E. Atkinson performed the ceremony. The house was prettily decorated for the occasion. Miss Bertha Henshaw was bridesmaid and Mr. Roy Archibald, brother of the groom, was "best man." The ceremony took place on the front porch and as the bridal party marched out of the house Mr. Bert Henshaw sang a beautiful solo. A delicious wedding cake with ice cream, etc., was served. Only immediate relatives and friends were present. Warren McKenzie took the happy young couple to San Jose in his auto and they left for Lodi and Sacramento before going to their new home at Reno, Nevada.

The bride and groom were both well known and respected young people of Campbell, where they have lived for years. Mr. Archibald, the son of H. V. Archibald of Johnson avenue, has been at Reno for about three months where he is engaged with his uncle, B. W. Archibald, in the commission business.

Mr. and Mrs. Archibald will be at home at Reno after August 15th. The good wishes of many friends go with them.

Will Organize in the South

J. D. Sawyer, who has worked so enthusiastically for the Fraternal Aid, has been called "up higher." He has accepted a position as district organizer in Los Angeles, Riverside and San Bernardino counties and will leave for the new field next Monday. He will probably be gone six or eight weeks on the first trip.

The Methodist church was moved to the new location at the corner of Campbell avenue and First street this week. Building of the auditorium will be pushed rapidly.

Special Week-Day Excursion Rates

On account State Convention, Improved Order of Redmen, at San Jose, Peninsular Railway Company will put their regular Sunday excursion rates in effect on Aug. 8th, 9th, 10th, 11th and 12th. Campbell to San Jose and return, 25 cents. Campbell to Congress Springs and return, 25 cents; no tickets sold on cars. Inquire at S. P. Ticket Office, Campbell.

Do not miss this opportunity of visiting Congress Springs pleasure park; also run into San Jose while the crowds are there.

Summer-time Now

Every week-end and holiday should be spent out-of-doors. An outing at once delightful, inexpensive and convenient is the trip by Peninsular Electric to Congress Springs, the natural pleasure park. This charming resort is private property, but visitors are freely welcome to enjoy its beauties and the healthful waters of the mineral spring. An ideal place for picnics; also "The Grill" now open. Round-trip tickets sold only at Peninsular offices. Time-tables and all information furnished on application at Southern Pacific Ticket Office, Campbell.

Local and Personal

"I don't know what the truth may be, I tell the tale as 'twas told to me."

Mrs. Dunphy and daughter are at Seabright.

John F. Duncan made a trip to the city yesterday.

Mr. Theo. Cutting was in Pacific Grove this week.

Mrs. Rice of Fruitvale was in town Wednesday on business.

Miss Maud Sindel visited her uncle, Frank Duncan, this week.

Miss Florence Kennedy was home from Oakland over Sunday.

Mrs. Geo. E. Atkinson and daughters went to Capitola Monday for a visit.

Edgar Kennedy has been laid up in bed for several days with rheumatism.

Mr. and Mrs. C. E. Hanger and Fred left Monday for a sojourn at Seabright.

Mrs. LeRoy Bean and little daughter Nancy visited with Mrs. L. C. Dick today.

Earl Cook was the victim of a surprise party last Tuesday evening, it being his 19th birthday.

Mr. Ed. Waite of Washington is visiting with his sister, Mrs. J. A. Greene, of Central avenue.

Miss Lucy Joy came home from the Children's Hospital at San Francisco Wednesday for a visit.

E. Lisle Keesling went to San Francisco last Saturday and on Sunday made a trip to Mt. Tamalpais.

Earl Brown of San Francisco spent Saturday night with his parents at their home on Rincon Avenue.

Let Golden West Cleaning and Dyeing Co. do your work for you. Putnam's are their agents in Campbell.

J. D. Blaine is enjoying a vacation this week and H. C. Langley is assisting Mr. Palmer in the Rochdale store.

The Misses Miriam and Christine McNary are visiting at the home of L. T. Cook, on the San Tomas road.

Dr. A. B. Townsend drove to Capitola today. Mrs. Townsend and the children went over on the train.

Mrs. Minnie Lewis will occupy the Miracle cottage recently vacated by Easton Carter on Central avenue.

Mrs. R. Alison is expected home today from a three months' visit with her parents and relatives in Missouri.

Mrs. Eva Becar and son of San Jose and Mr. H. Grant of Porterville visited with Mrs. B. Downing last Sunday.

A few Buff Cochins Bantams from fancy stock. Fine pets for children, 50¢ up. E. L. Keesling, Phone San Jose 5409R2.

The W. C. T. U. is giving a reception at the home of Mrs. Whitman this afternoon in honor of Mrs. and Miss Matthews.

Herbert Scholz and Will Ross came home last week from Oroville and went to Santa Cruz for a few days, returning yesterday.

Order your Rubber Stamps, Stencils, Seals, Numbering Machines, etc., at the Press office. A big catalog of samples to select from.

Ernest Downing fell while playing about the new Curry building last Sunday and sprained his ankle. Dr. Blanchard attended him.

A party composed of the Misses Della and Gertrude Cook, the Misses Mary and Mildred Beaver, Mrs. J. D. Blaine and children spent Wednesday picnicking near Alma.

Bert K. Kerr, the Optometrist, at 36 S. Second St., San Jose, will examine your eyes carefully; if glasses are needed, fit them correctly, if not, tell you so cheerfully. See him about your eyes.

Mrs. Hageman and her daughter-in-law, Mrs. Ira Hageman and family, who have been living in the Preston house on Second street, moved to their ranch on the Santa Clara and Los Gatos road Tuesday.

Don't be satisfied with merely a "job". Any man or young woman can qualify for a good "position" by a few months of earnest application. For information write to Heald's Business College, San Jose, Cal.

Mr. and Mrs. J. E. Palmer entertained as week-end guests Mrs. C. E. Hutchison, daughter and son of Los Angeles, Mrs. B. P. Rielly and Miss Golda Rielly of San Jose, Miss Sue Russell of Lodi and Mr. Frank Rielly of San Francisco.

The Misses Della and Gertrude Cook entertained at a progressive dinner at their home on the San Tomas road last Saturday evening. The first three courses were served at their home and the last at the home of Mrs. G. L. Beaver. Those present were the Misses Ernestine Kennedy, Matilda Hayes, Cora Rodeck, Mary and Mildred Beaver, Christine and Miriam McNary and Gertrude and Della Cook.

Charles Gilman

Called to Rest

After weeks of suffering death came to the relief of Charles Gilman last Saturday night at 10:30 o'clock, at his home on North First street. Mr. Gilman had suffered with cancer of the stomach for many years and for some months he was unable to be about. He was treated at the Garden City Sanitarium for several weeks and was temporarily relieved but when he came home at once became worse. He was not conscious since the Thursday noon previous to his death.

Charles Whitmore Gilman was born on a farm near Shirley, Maine, Nov. 6, 1846. When 14 years old he came with his parents to Richfield, Minn., where he continued farm life. In 1875 he was married to Miss Clara L. Marshall at Union Grove, Minn. Mr. and Mrs. Gilman came to California in 1896 and resided in the Willows until they came to Campbell three years later. Mr. Gilman was engaged principally as a salesman for the Acme Mill Co., traveling about the country.

The funeral was held at the Congregational church on Tuesday morning at 10 o'clock, and the services were conducted by the Rev. John F. Wilson, of the Methodist Episcopal church, assisted by the Rev. J. H. Wythe, D. D. Mr. Gilman was converted when young and has always been a faithful, consistent member of the Methodist church. He took his Christianity with him in his work and constantly sought to win men to the Christian faith. He was an uncompromising prohibitionist—believing in the absolute prohibition of the sale and manufacture of alcoholic or spirituous liquors.

Chaplain J. H. Macomber, of San Jose, who was once Mr. Gilman's pastor at Richfield, Minn., was present at the funeral but was unable to speak. A quartet choir composed of Mr. and Mrs. J. E. Palmer, Mrs. J. F. Wilson and J. C. Gordon sang "Saved by Grace" and "Face to Face," two favorite songs of Mr. Gilman. The remains were taken to the Oak Hill cemetery for interment.

Besides the many friends who attended the funeral were a brother, John F. Gilman; a nephew, Geo. D. Gilman; a niece, Mrs. Grace Hobson, all of The Willows; and a cousin, Mrs. Jennie Rhodes of San Jose, and members of their families. The deceased had no children. He is survived by the wife, Mrs. Clara Gilman.

Card of Thanks

With a grateful heart I wish to thank my neighbors and friends for their many acts of kindness and sympathy in my time of need and sorrow.

MRS. CLARA GILMAN.

Paragraphs Selected With a View
to Giving Busy Readers the
News in a Nutshell.

Los Angeles.—Four alleged "white slavers" are in jail here charged by Clara Lantz, a 19-year-old country girl, with having kept her a prisoner.

Portland, Or.—The greatest run of salmon in years has now entered the Columbia river and all the canneries on the lower river are blocked with fish.

San Diego.—Police Justice George Puterbaugh fined H. A. Van Bibber and F. L. Schmidt, charged with disturbing the peace by doing picket duty in front of a local restaurant, \$25 each.

Roseville.—Mrs. J. Mosher was bitten by a tarantula. The insect was in a basket of clothes which she had left in the yard. The doctor who attended her believes she will not suffer serious effects.

San Francisco.—Three hundred tins of opium were found by customs inspectors dangling from the end of a string thrown over the bow of the steamer Manchuria. The contraband is valued at \$12,000.

Pasadena.—Dr. Jeremiah Rhodes, president of the New Hampshire State Normal School, has been elected by the Board of Education as superintendent of the Pasadena city schools. His salary will be \$4500 a year.

San Francisco.—Morris Resnick, convicted of having forced his wife, Rosie Resnick, to lead a life of shame and of having compelled her to keep a questionable rooming house, was sentenced to a term of five years at San Quentin by Judge Lawlor.

Los Angeles.—Forbidden to make suffragist speeches at picnic meetings in Los Angeles, the woman suffragists set their speeches to music and sang them. The defiance of the police and park board caused widespread amusement over the State.

Oakland.—The Oakland and Antioch Railway filed suit to condemn a right of way across the lands of John Reys, situated on Dairyland McDonald creeks, this county. The land comprises about two acres and Reys has refused the terms offered by the company.

Sacramento.—Fifty-seven new automobiles a day is the California record for July, according to figures from the motor vehicle department of Secretary of State Jordan's office. There were 1501 registered in 26 working days, bringing into the State treasury \$4043.50.

Tacoma.—A cablegram from Captain Jacobson reports the arrival of the schooner Aspeda at Sydney, Australia. She sailed from Hoquiam, lumber-laden, 162 days ago for Port Adelaide, and as the voyage ordinarily consumes 100 days, much anxiety was felt for her safety.

Seattle, Wash.—Petitions for the recall of Mayor George Dilling and Councilmen Blaine, Steiner, Wardall and Kellogg will be filed this week. The Recall Association claims many more names than are necessary for the filing, but want to give citizens an opportunity to sign.

Willows.—The Board of Supervisors fixed September 12th as the date for the election to vote bonds of \$450,000 for new roads and bridges. The plan is to spend \$290,000 for new bridges and repairing old ones, and \$160,000 for repair of roads. The plan provides for giving the county a complete system of roads.

Alameda.—The last local steam train from the Alameda mole on the north side line ran last Saturday night. The local trains on the north side line to the Alameda mole will now be operated by electricity. The trains will use the east end loop and their route will be in the form of a horseshoe, with the Alameda pier as the starting and terminal point.

San Francisco.—The valuation of corporation property in San Francisco county is placed at \$83,207,566 by Auditor Boyle, who has submitted to the State Controller the lists for San Francisco showing that aggregate. By the operation of the new tax law, corporation taxes are levied by the State, and the city thus loses that amount of property taxes.

INCREASE OF GLUTEN IN GRAIN IMPORTANT TO STATE

Care in Selecting Seed and Conserv-
ing Soil Bring Results.

Sacramento.—A review of the grain and hay crop conditions in the Sacramento Valley shows that in a majority of the counties the yields of wheat, barley, oats and hay is not only larger than the average, but is of quality superior to the standard. In a few districts where the crop was a little light, quality has made up the difference.

The single fact which most pleases the valley farmers at the close of the threshing season, however, is the unusual increase in the amount of gluten in wheat. Several years ago a scare swept over the grain districts owing to the rapid deterioration of gluten, and experts prophesied that unless more care was taken in selecting seed and in conserving the energy of the soil, it would not be long until the California output would be practically worthless for milling.

Since that time the ranchers have been gradually improving the quality of the crop, and with the gain in gluten this season, millers are of the opinion that the importations from the other states for blending will speedily decline.

BIG FRUIT SHIPMENTS ARE GOING FROM SAN FRANCISCO

Many Trainloads Daily Are Going East
Over the Several Railroads.

Stockton.—The shipment of 200 carloads of fruit from the Stockton division of the Southern Pacific has caused that corporation to greatly increase its force during the past few days. The warm weather is ripening the fruit and grapes at a rapid rate and refrigerator companies are already having all they can do to attend to moving the large shipments.

Turlock alone is shipping twenty carloads of melons daily from northern points in San Joaquin county. Peaches, pears, plums and other fruit make up the trainloads going forward. The interurban feeders are also having a busy season moving the fruit from the small stations to the points where the trains are made up for the various cities of the East.

STATE HIGHWAY BOARD IS NAMED BY THE GOVERNOR

18,000,000 Road Building Work about
To Be Started by State.

Sacramento.—Announcement has been made at the governor's office of the appointment of Newell D. Darlington of Los Angeles, Chas. D. Blaney of Santa Clara and Bertram A. Towne of Lodi as the state highway controlling board in charge of the \$18,000,000 road building work about to be started by the state.

The salary of each is \$3600 a year, the board having been created under the Chandler enabling act by the last legislature. Darlington and Towne are engineers, while Blaney is a wealthy good roads enthusiast.

Fruits in Tulare Country.

Porterville.—The price of peaches has taken a boost and Albertas went to \$60 a ton. This is the largest price paid in the history of the Porterville peach district. During the past few days nearly all the peaches have been sent out in half cars from here to Dinuba, there to be filled with table grapes. It is said that the plan of sending half grapes and half peaches has resulted in better prices for both fruits.

Knew He Would Die.

Fresno.—Firmly believing that he was soon to die, Oliver R. Dale, for 35 years a resident of this county, and 80 years of age, called a lawyer and a justice of the peace to his home in this city and drew up his will. Although 80 years of age, he was in good health. The following morning his daughter, Mrs. Laura Pabst, entered his bedroom and found his corpse on the bed. He had inhaled gas through a rubber tube.

Banner Melon Country.

Dinuba.—The watermelon business from Dinuba for the month of July amounted to 247 cars. This does not include any shipments made from North Dinuba, Monson, Sultana or Cutler in the same territory, but Dinuba alone. The shipping is still in progress and will continue at intervals for the next two weeks or more.

Buried Three Days.

Joplin, Mo.—Though he has just been rescued after being entombed in a mine drift 72 feet below the surface of the earth for three days, Joseph Clary, taken from his prison one day, resumed work the following day.

Lofty Chiming Bell Tower An Exposition Feature

San Francisco.—As a lasting memorial to the States in the Union which will be represented at the Panama-Pacific Exposition in 1915, John McTammany of Stanford, Conn., inventor and musician, has drafted out a plan for the erection of a tower fifty stories in height, each story to contain a large deep-toned bell, and upon which patriotic and popular airs can be played by means of perforated rolls, similar to those used in the operation of mechanical pianos.

The project is that each State will appropriate sufficient money to pay for the bell representing that division of the Union and that each bell shall be emblazoned with the coat-of-arms and motto of its State. The building, if erected, will be a permanent structure and, according to the originator of the scheme, will be to San Francisco what the Eiffel tower is to Paris.

As at present outlined, McTammany's plan contemplates the erection of a tower fifty stories high. It is to be in skeleton form, as is the Eiffel tower, and on each platform will be placed a huge bell, the size, of course, depending upon the tone desired and the amount appropriated by each State.

The bells are to be operated mechanically by means of a perforated piece of paper, substantially in the same manner as a mechanical piano is operated. An elevator and observation tower is also included as part of the general plan.

The sentimental idea of the project is that at stated intervals every State in the Union will unite in a grand symphony of peace and good will, typified by the strains of patriotic airs.

The proposition so far advanced also includes a series of bells, representing the nations of the earth, the cost of these to be defrayed by subscriptions from the natives of the various countries now resident in the United States.

In addition to his scheme for a permanent tower, McTammany also advances a project for the establishment of an automatic harp of 1000 strings, to be governed and played automatically. An automatic band, with the capacity of 100 different instruments, is also mentioned as one of the possibilities of musical mechanism.

McTammany's projects for supplying musical entertainments to the visitors to the Panama-Pacific Exposition are said by the originator to need but little outlay on the part of the people of this State, suitable buildings only being necessary for their housing. The automatic harp and band would be, according to McTammany, supplied by the different branches of the music trade, and the bells would be paid for by the States and nations represented.

No action has, of course, been taken on this matter by the directors of the exposition, but McTammany is hoping that at some future time his energies and abilities, which he wishes to donate to the exposition, will be called upon.

Goaded to Desperation Young Wife Shoots to Kill

San Francisco.—James Langley was shot and killed last Wednesday afternoon by his nineteen-year-old wife, Anna, who, driven to desperation by his long continued cruelty, ran into a pawnshop to exchange her gold watch, a present to her when a child, for a loaded revolver after he had called her an evil name.

At the city prison men wept as she told the pitiful story that led up to her crime. Policemen, newspaper men, teachers and even judges vied with one another in their words of comfort and offers of assistance to this child. There was only pity and compassion for her, and only exhortation and loathing for the man who lay on the morgue slab.

For he had beaten and abused her during their 15 months of married life. He had refused to work and had com-

pelled her to support herself. By cruel word and infamous deed he had made a wreck of her life.

Finally, he told her that she was no better than the painted women of the night life and had done his utmost to compel her to join them.

Then she killed him.

The following is the verdict of the Coroner's jury:

"We, the jury, find that James W. Langley came to his death from gunshot wounds, the weapon being shot by Anna Langley while temporarily insane as the result of the continued intoxication and abuse of the deceased."

Immediately after the inquest the same witnesses were examined by the Grand Jury. The Grand Jurors continued the investigation of the case but recommended that in the meantime the girl be released from custody upon her personal recognizance.

Thousands Killed By Greatest Heat in Forty Years

Washington.—Not in the last forty years have temperatures in the United States during the late spring and early summer been so uniformly high for so long a period and over such a large portion of the country as this year, according to weather bureau officials. The high temperatures were most pronounced over the more central and northern portions of the country, while the Southern States were comparatively exempt from unusual heat.

The intense heat occurring over the more populous sections caused severe suffering in the congested portions of the cities and resulted in the loss of probably thousands of lives.

Lack of rainfall over the great agricultural districts during most of the long heated period greatly retarded vegetable growth and threatened a

serious curtailment of crop production. Opportune rains, however, with cooler weather, greatly improved conditions and the outlook at the present time is favorable for the gathering of the usual harvests of most of the great staples.

The period of greatest discomfort was from June 22 to July 10. Higher temperatures occurred at other periods over much of the territory, but the resulting discomfort and loss of human life were doubtless augmented in the period just passed by the fact that the most intense heat occurred toward the close of a long heated period, when the animal vitality had been largely depleted and therefore not in condition to further withstand the debilitating effect of still greater heat. The nearest approach to the recent hot waves was in 1901.

State Board Prohibits Use of Supplies Unpaid For

Sacramento.—Coming closely upon its report to Governor Johnson that State Printer W. W. Shannon and four printing supply firms have conspired to mulct the State of some \$90,000, the State Board of Control sent a written notice to Shannon forbidding him to use any of the materials not yet paid for. In all there is about \$75,000 of such material on hand and the action of the Board is taken to indicate that the entire amount of supplies will be returned to the firms that furnished them, namely, the Zellerbach Paper Company, the H. S. Crocker Company, the E. J. Shattuck Company and Geo. D. Graham.

The men on the Board of Control, J. A. Johnston, Clyde Seavey and J.

F. Neylan, stated that they had made their recommendations to Governor Johnson and that the next move would come from him.

Relative to the charges against the officials of the State Printing Office, Governor Johnson said:

"The findings of the State Board of Control are complete, as is also the investigation into the conditions existing in the State Printing Office. There is one thing certain, and that is that we will not pay the bills for supplies contracted and not needed.

"Such an attempt to mulct the State is outrageous, but what will be done further than the refusal to pay the bills for unneeded supplies is more than I care to say at this time."

GRAPE GROWERS ASSOCIATION COMBATS TEMPERANCE FORCES

Secretary Claims Organized Temperance
Effort to Crush Wine Business.

Los Angeles.—H. F. Stoll of San Francisco, secretary of the State Grape Growers' Association, has been working among the leading Southern California growers and wineries and enlisted the interest of all the principal grape men in a movement to combat the efforts of the temperance forces to destroy the industry.

Stoll states that \$100,000,000 is invested in the California grape industry, and its importance would be hard to overestimate. When the local-option law was passed last winter it was tacitly understood, he asserts, that, owing to the vast amount of capital tied up in the wine industry, it would not be disturbed, but an organized temperance effort to put the wineries out of business soon cropped out.

The local concerns contributed a large amount to help the work of the State association. The plan is to assess all growers 5 cents a ton, crushers 10 cents a ton and dealers in proportion to the business they do, and Stoll says none of those approached has raised an objection. He will devote some time to the work in Ventura county.

BIG IMPROVEMENTS PLANNED BY GLENN COUNTY BOARD

\$450,000 Worth of Bonds for New
Roads in September Election.

Willows.—The Glenn County Board of Supervisors, in session here, passed an ordinance calling for a special election on September 12th to vote on the proposition of bonding the county for \$450,000 for new bridges and roads. Of this amount \$160,000 will be used for new roads and \$290,000 for bridges. The sentiment of the people appears to be strongly in favor of the bonds.

Petitions circulated in the eastern part of the county asking the Supervisors to call such an election were signed by practically every taxpayer, and when the matter comes to a vote it is expected the bonds will easily carry. Little of the proposed work can be done this year, but the county will be ready to begin operations early next spring.

A NEW CANADIAN RIVER DISCOVERED BY SURVEYORS

Stream That Will Materially Shorten
Route to the Arctic.

Ottawa.—A new Canadian river at least four hundred miles long has just been discovered and reported to the Government. It is the Black Crow river, a tributary of the Porcupine, and was thought to be only thirty miles long. Surveyors delineating the international boundary have succeeded in going four hundred miles up in a gasoline launch.

The find is considered important in that it will shorten the work of these surveyors by a year and will also materially shorten the Canadian water route to the Arctic Ocean.

Railroad Refuses Shorter Hours.

San Francisco.—General manager E. E. Calvin of the Harriman system of railroads denied shorter hours and increased pay to employees of the system. Calvin's dictum followed a lengthy conference with the federated employees' committee. An eight-hour day and 7 per cent increase in pay for helpers and semi-skilled workmen over the system was asked. The new schedule would mean a total yearly increase of between \$1,800,000 and \$2,000,000.

Indian Fighters Get No Reward.

Sacramento.—The \$1000 reward offered by Governor Johnson for the arrest and conviction of the band of Indians under "Indian Mike," who murdered four men on January 19, 1911, in Washoe county, Nevada, will not be paid to the 18 cowboys, who, under the leadership of Sheriff Smith, a California official, killed eight of the Indians and captured the others—one squaw and three children.

Forest Fire Destroys Town.

Millville.—The forest fire which was started by the blaze that destroyed the business heart of Millville, was not subdued until 5 o'clock the following morning. The wind died down at midnight and then the 100 farmers who had turned fire fighters began to stay the onrush of the flames through the timber on Oakrun.

Railroad Sued.

Frankfort, Ky.—Charging that it falsified its net earnings in reports to the State Auditor for four years, the State sued the Louisville and Nashville Railway for \$500,000, alleged to be due as back taxes.

WORLD'S NEWS OF THE WEEK SUMMARIZED

Adventures of the Children of
Mother Earth Related in
Condensed Form

Comprehensive Review of Passing
Events in Every Quarter of
the Terrestrial Globe.

Washington.—Troopers of the Third U. S. cavalry covered 119,000 miles during their campaign in Texas.

Bluefield, W. Va.—Four miners were killed and nine injured by an explosion in the mine of the Standard Pocahontas Coal Company at Shannon.

Richmond, Va.—Louis L. Gregory, a cashier of the Atlantic Coast Line Railway here who pleaded guilty to stealing \$25,000, was sentenced to three years' penal service.

Massena, N. Y.—Seven persons were drowned in the St. Lawrence river when the ferry steamship Syrus struck a shoal eight miles below this city, capsizing and hurling its 75 passengers into the water.

Berne.—Professor John Clark of Columbia University has opened the meetings of the International Permanent Bureau of Peace, which will arrange for the international Peace Congress to be held in Rome in September.

Washington.—The Secretary of the Treasury made the salary of Miss Margaret V. Kelly of the Mint Bureau \$3000 a year, and placed her in such a position that in the absence of the director of the mint Miss Kelly will be acting director.

Superior, Wis.—Lassoing a moose from a rowboat and then tying the animal up to a tree on shore was the unusual experience of Colonel Hill of Quincy, Ill., and J. P. Chevere of Brookings, S. D., who are on a fishing trip to Isle Royale.

Mexico City.—Emilio Vasquez Gomez, Secretary of the Interior, resigned upon request of President de la Barra. The portfolio has been offered to Alberto Garcia Granados, Governor of the Federal district, and it is believed he will accept.

Washington.—Wilson Evans, charged with embezzling \$20,000 from the Farmers' and Merchants' National Bank of Los Angeles, of which he was formerly Teller, died at Acapulco, Mexico, where he was awaiting extradition to the United States.

Great Falls, Mont.—Three masked men robbed the First National Bank of Harlem in broad daylight, but the man who had the booty in his possession was killed and the money recovered. The other two bandits escaped. Poses are after them and it is believed they will be captured.

Cettinje, Montenegro.—It is announced that an agreement has been reached between Montenegro and Turkey on the disputed points of the amnesty to the Albanian rebels, and that the Montenegrin Government now will endeavor to induce the Malissori to return to their homes.

Washington.—Samuel J. Gompers, Frank Morrison and John Mitchell the labor leaders, were allowed 20 days by Justice Wright of the District Supreme Court in which to answer the charge of contempt against them as contained in a second report of the committee of prosecutors in the Buck Stove and Range case.

Vancouver, B. C.—C. F. Henze, a painter aged 40, who came here recently from San Francisco, was killed when a scaffold around a church steeple he was painting collapsed. Henze fell 75 feet and struck on his head. Another man, who was working with Henze, escaped with a fractured thigh.

Washington.—For the purpose of raising the efficiency of the field artillery of State militia. President Taft has authorized the addition of one sergeant to each field battery of the regular army for detail exclusively to duty with the organized militia. Enlisted men will be promoted to the sergeantcies.

London.—The meat trade of England is seriously threatened by a strike of 12,000 dock laborers at the London docks growing out of a dispute over wages. The men claim their employers promised an increase commencing July 31st, but their pay envelopes, when received, failed to contain the advance.

Honolulu.—The first record ever taken out of the heat of boiling lava has been obtained by the Carnegie foreign scientists at the volcano of Kilauea. The first thermometer lowered in the crater was destroyed by the chemical action and floating lava blocks crushed the second. It registered 1010 degrees.

You May Need It

Ask your doctor about the wisdom of your keeping Ayer's Cherry Pectoral in the house, ready for colds, coughs, croup, bronchitis. If he says it's all right, then get a bottle of it at once. Why not show a little foresight in such matters? Early treatment, early cure.

We publish our formulas. We banish alcohol from our medicines. We urge you to consult your doctor.

Many a boy is called dull and stupid, when the little trouble is due to a lazy liver. We firmly believe your own doctor will tell you that an occasional dose of Ayer's Pills will do such boys a great deal of good. They keep the liver active.

Made by the J. C. Ayer Co., Lowell, Mass.

They'll Know.

"I understand you have bought some expensive gowns here in Paris."

"Yes, but what's the use. Few people know whether a gown is expensive or not."

"Wait till you reach the customs inspectors."—Kansas City Journal.

YOUR SOLE WILL HAVE THREE LIVES. If the new and wonderful Sole Preserver is used, "SOLE PRESERVER"

Prolongs the wear of your soles from 100 to 300% YOU APPLY BUT ONE APPLICATION, making your shoes absolutely waterproof and protecting the wearer from rheumatism and bad colds. Inclose 25c for can.

NOVELTY SALES CO., 215 S. Broadway, Los Angeles, Cal.

The Poet's Family.

"Dad, you're poor, ain't you?"

"No, son—I'm rich, I own you and the baby, and you're worth a million dollars apiece to me."

"Dad, couldn't you hypothecate the baby, an' get me a new pair of shoes?"—Toledo Blade.

READERS of this paper desiring to buy anything advertised in its columns should insist upon having what they ask for, refusing all substitutes or imitations.

HOW GEORGIA GOT THE IDEA OF A DEMONSTRATION FARM

The Accomplishments of a Seed Firm Set the Planters Thinking.

"When our firm established a test and plant breeding farm in Troup county, Ga.," writes a Southern seedman in Progress, "we had no idea of making it a demonstration farm. In carrying on that farm, however, we used what we knew to be the best methods, although they ran counter to the general cotton-growing practice of that section. While the farmers who watched our first year's efforts did not condemn our methods as bad, they did express the opinion that we were taking a 'heap of unnecessary trouble.'"

"When our crops turned out about double the yield an acre that theirs did they were convinced that there was something in those better methods, after all, and they are now followed in greater or less degree in that vicinity. We were told recently that the cotton crop of that part of Troup county has increased some 20 per cent through the use of better methods since our work began."

The machinery making company is establishing headquarters for farm machinery demonstrations in three of the Southeastern States this year. In Mississippi and Alabama two sixty-acre farms have been established. In Georgia an arrangement has been made to carry on this farm machinery demonstration work on the Hastings farm of 3000 acres at Trimble, Ga.

The company will erect a model building for the housing or storage of farm machinery when not in use, encouraging in this way the right care of machinery and prolonging its active life. In that building will be assembled every class of implement manufactured by the concern that is adapted to use in this section, and these implements will be in regular use on this farm, open at all times to the inspection of the public.

If any farmer wishes to see how a machine works, whether it will answer his purposes or not, he will at any time have an opportunity of inspecting it in field use before he purchases. All this demonstration work of various kinds—farm machinery, fertilizer, better seeds, new kinds of crops—is educational, the kind of education that pays in better financial and social conditions in the country, which, in turn, benefits the business interests of the city.

Missed Her Chance.

Mr. Smith had been reading and talking nothing but "reciprocity," and his five-year-old daughter, Elsie, learned the word and appeared to take a great deal of interest in the conversation. The morning after the event Mr. Smith greeted the family with the announcement, "Well, reciprocity passed the House yesterday."

"Oh, papa," cried Elsie, "why didn't you tell me so's I could've had a look at it?"—Metropolitan Magazine.

A Fraudulent Policy.

"I have always," he said with a show of pride, "voted the straight ticket of my party, as my father did before me."

"Yet I heard you say a moment ago that you carried life insurance."

"I do, but what has that got to do with politics?"

"When a man gets life insurance he has to show that he doesn't inherit insanity, doesn't he?"—Chicago Record-Herald.

Classified.

"What kind of a voice has that Mrs. Higley, anyway?" asked Squiggles.

"I don't know exactly," said Dubbleight. "I'm not up on voices, but I should say, judging from her pertinacity in singing 'Cavalleria Rusticana' from 7 a. m. to 10 p. m. every day of the week, that she's what you might call an 'intermezzo soprano.'"

—Harper's Weekly.

Why the Ice Formed.

Old Gent—"Pon my word, madam, I should hardly have known you, you have altered so much."

Lady—For better or for worse?

Old Gent—Ah, madam, you could only change for the better.—Judge.

His Limitations.

Guest—Good heavens! Does your chauffeur always speed like this?

Barker—No. Sometimes the car breaks down.—Harper's Bazar.

We Make it a Point of Pride to Accept in Good Part our Friends' Criticism of our Delinquencies, but All the Same we Wonder where their Judgment is Located!

France has lost so many chestnut trees by disease that an attempt is being made to replace them with a Japanese variety, which seems immune.

A new sanitary mouthpiece for telephones is made flush with the transmitter case to avoid germ catching corners.

The thumb-print system is to be used by the City Treasurer of Milwaukee in paying off municipal employees.

DEATH BEFORE 100 YEARS IS SUICIDE

Ignorance of Laws of Health Explains Early End of Life.

Noted Scientist Has Encouraging Word for Despondent Men and Women.

"Death before 100 years of age has been reached is nothing more or less than slow suicide. A man (or woman) who does at an earlier age is simply ignorant of the laws of health."

Such was the original and rather startling statement made by Professor James M. Munyon, the famous Philadelphia health authority, who is establishing health headquarters in all the large cities of the world, for the purpose of getting in direct touch with his thousands of converts.

Professor Munyon is a living embodiment of the cheerful creed he preaches. Virile, well-poised, active and energetic, he looks as though he would easily attain the century age limit which he declares is the normal one. He said:

"I want the people of the world to know my opinions on the subject of health, which are the fruit of a lifetime devoted to healing the sick people of America. There isn't a building in this city big enough to house the people in this State alone, who have found health through my methods. Before I get through there won't be a building big enough to house my cured patients in this city alone."

"I want, most of all, to talk to the sick people—The invalids, the discouraged ones, the victims of nerve-wearing, body racking diseases and ailments—for these are the ones to whom the message of hope I bear will bring the greatest blessing."

"I want to talk to the rheumatics, the sufferers from stomach trouble, the ones afflicted with that noxious disease, catarrh. I want to tell my story to the women who have become chronic invalids as a result of nervous troubles. I want to talk to the men who are 'all run down,' whose health has been broken by overwork, improper diet, late hours, and other causes, and who feel the creeping clutch of serious chronic illness."

"To these people I bring a story of hope. I can give them a promise of better things. I want to astonish them by showing the record of cures performed through my new system of treatment."

"I have taken the best ideas from all schools, and embodied them in a new system of treatments individually adapted to each particular case. I have no 'cure alls,' but my present method of attacking disease is the very best thought of modern science. The success which I have with these treatments in this city, and all over America proves their efficacy. Old methods must give way to new medical science moves. I know what my remedies are doing for humanity everywhere. I know what they will do for the people of this city. Let me prove my statements—that's all I ask."

The continuous stream of callers and mail that comes to Professor James M. Munyon at his laboratories, 53rd and Jefferson streets, Philadelphia, Pa., keeps Dr. Munyon and his enormous corps of expert physicians busy.

Prof. Munyon makes no charge for consultation of medical advice. Not a penny to pay. Address Prof. J. M. Munyon, Munyon's Laboratories, 53rd and Jefferson Sts., Philadelphia, Pa.

The vapor produced by dropping twenty drops of carbolic acid on a hot plate will kill all the flies in a moderate-sized room.

ASSIST YOUR STOMACH. In its work of digestion and assimilation by beginning your meals with a dose of HOSTETTER'S STOMACH BITTERS. It will prevent SOUR STOMACH, INDIGESTION, DYSPEPSIA, SICK HEADACHE, HEARTBURN, MALARIA. Try a bottle today.

TOOTHLESS SAWS USED FOR CUTTING THE HARDEST STEEL

Work Done So Quickly That Heat Has Not Time to Generate.

The employment of high speed revolving disks of mild steel for cutting hard steel has become common, but the process always excites the astonishment of the uninitiated. The disks are preferably made of boiler plate quality and are about a quarter of an inch thick. They revolve with a peripheral speed of as much as 20,000 feet a minute. One of these disks will cut through a heavy channel section of hard steel, 12 by 6 1/2 inches, in fifteen seconds.

It appears to act by local fusion. The very high speed causes thousands of inches of surface to impinge in rapid succession on the metal undercut, so that its temperature at the point of contact becomes very high, although the disk, owing to its large surface area, remains relatively cool. All its frictional energy is concentrated on an extremely small area of contact. The work is done so quickly that the heat has no time to spread to the metal undercut, and the sides of the cut portion are only a little warmed.—Youth's Companion.

SAVED FROM AN OPERATION

By Lydia E. Pinkham's Vegetable Compound

Peoria, Ill.—"I wish to let every one know what Lydia E. Pinkham's remedies have done for me. For two years I suffered. The doctors said I had tumors, and the only remedy was the surgeon's knife. My mother bought me Lydia E. Pinkham's Vegetable Compound, and today I am a healthy woman. For months I suffered from inflammation, and your Sanative Wash relieved me. Your Liver Pills have no equal as a cathartic. Any one wishing proof of what your medicines have done for me can get it from any druggist or by writing to me. You can use my testimonial in any way you wish, and I will be glad to answer letters."—Mrs. CHRISTINA REED, 105 Mound St., Peoria, Ill.

Another Operation Avoided. New Orleans, La.—"For years I suffered from severe female troubles. Finally I was confined to my bed and the doctor said an operation was necessary. I gave Lydia E. Pinkham's Vegetable Compound a trial first, and was saved from an operation."—Mrs. LILY PEYRON, 1111 Kerlerec St., New Orleans, La.

The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound is a remarkable remedy for those distressing feminine ills from which so many women suffer.

Sure of It.

Presbyterian Elder—Nae, my mon, there'll be nane o' they new-fangled methods in Heaven.

Listener—I don't know how you can be sure.

Presbyterian Elder—Sure? Why, mon, gin they trie it, th' whole Presbyterian kirk wad rise up an' gang out in a body.—Lippincott's Magazine.

A merchant advertises because he wants your trade. He will make it worth your while to patronize him.

A Difference.

It is claimed that there are as many microbes on a dollar bill as on a fly. But the dollar bill does not make such desperate and continuous efforts to alight on you.—Minneapolis Journal.

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels and cure constipation.

Relief.

"And what do you sailors do when you get homesick?"

"We goes to sea again, mam."—Houston Post.

Difficult.

Reporter—Was Jones calm and collected when the boiler explosion occurred?

Villager—Well, he was calm, all right; but they never did get him quite collected.

Different.

Willie—Did the doctor make you take nasty medicine when you were sick?

Freddie—No; it was father who made me take it.—Judge.

PUTNAM FADELESS DYES

Colors more goods brighter and faster colors than any other dye. One 10c package colors silk, wool and cotton equally well and is guaranteed to give perfect results. Ask dealer, or we will send post paid at 10c a package. Write for free booklet how to dye black and mix colors. MOPROF DRUG CO., Quincy, Illinois.

When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter, free. All correspondence strictly private and sacredly confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

If you want a book that tells all about women's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 31 stamps.

The Ideal Horse.

Peter L. Tarriss, the grain expert of Lincoln, was condemning the reciprocity idea.

"The United States promoters of Canadian reciprocity expect too much of it," he said. "They expect to gain practically everything and to give practically nothing. Well, they'll get left—like Hi Billings."

"Hi went to a horse sale one day and bought a horse for \$18. When he got the horse home he offered it a bucket of water, but it wouldn't drink. After he gave it a feed of corn, but it wouldn't touch that, either."

"Well," he said, "you're the very horse for me if you'll only work."—Washington Star.

Silly and Dangerous Gun-Toting.

The habit of carrying guns has almost entirely died out in the Pacific Northwest among men with any pretense of respectability. It has not been the rigid enforcement of the laws against carrying concealed weapons which has brought about the change, but simply the good sense of the individuals, who have awakened to the fact that the old practice was silly and dangerous.—Seattle Post-Intelligencer.

Resentment.

"Did you say I was a cheap trickster?" asked the ward worker.

"No, I didn't," replied the man who is close to the boss. "I merely said you were a trickster."

"Well, that's all right. But don't you ever insinuate that I'm doing a cutrate business."—Star.

A Preference.

"I'd rather be a live rabbit than a dead lion," he said, after they had been sitting for a long time where the silence was almost oppressive.

"Well," she replied, "you get your wish."—Chicago Record-Herald.

Now It's Different.

The tramp said, as the savage dog made circles round his tree: "I used to rush the growler; now the growler's rushin' me."—Dallas News.

Plans are under way for placing all the trunk telephone lines between Boston, New York, Philadelphia and Washington under ground.

CAMPBELL INTERURBAN PRESS

PUBLISHED EVERY FRIDAY

LEWIS C. DICK Editor and Publisher

Office, RED 313 TELEPHONES Res., RED 114

Entered as second-class matter September 30, 1904, at the Postoffice at Campbell, California, under the Act of Congress of March 3, 1879.

Subscription, \$1.00 per Year in Advance Locals, 5c per Line each insertion
Display Adv., (2 or more inches) 50c an inch per month. 1 inch 75c per month.
Notices of Entertainments where a charge is made, Cards of Thanks, etc., 5c per line.

Mrs. May Arkwright Hutton of Spokane, founder of the Political Equality League of Washington, which was successful in its battle for the ballot at the last election in that state, is coming to California early in September to assist the California Suffrage Association in its campaign, remaining until the votes are counted, following the election on October 10. Mrs. Hutton is one of the owners of the Hercules mine in the Coeur d'Alene district of northern Idaho and probably the richest woman in eastern Washington.

IT is reported that some people have been losing chickens of late.

NOBODY ever bit off more watermelon than he could chew.

SOME statesmen think that Arizona has ruined its constitution by an overdose of "recall."

CONGRESS seems to be rapidly resolving itself into a National Bureau of Investigations.

CHICAGO cheerfully surrenders to San Francisco the reputation of being the wickedest city.

WE have been advised that our people should be cautious against sewing machine fixers and others about town who might be allowed in your homes.

NO doubt when Pure Food Wiley shall have subjected the charges against him to expert investigation he will pronounce them pure nonsense and malice.

The Big Apple Show at Watsonville

WATSONVILLE, Cal., Aug. 1911. —Preparations for the "Apple Annual," California's great apple show, the second one of which will be held here October 9-14, are going rapidly ahead and prospects now are that last year's success will be eclipsed. In addition to creating an interest in a better and more uniform pack, more careful selection and other features tending to improve the market for local packers and growers, the first apple annual held in 1910 was remarkable in its demonstration of the apple growing possibilities of other sections of the state.

For example, there were fifteen counties represented. These took one hundred and one first prizes and thirty second prizes. Tuolumne county took thirty-four first prizes and ten seconds, a most remarkable showing, each prize being awarded, not for manner of display, but quality of fruit. Sonoma county won twenty-three first prizes and eight second prizes, the apples from that section being splendid specimens. Eldorado was close after Sonoma with twenty-three first and three second prizes. Siskiyou county sent one exhibit only, but it won a first prize. Santa Clara carried off three, San Luis Obispo four, Mendocino three, Butte five, Los Angeles one, Modoc four and Mariposa one.

It is expected under the stimulus of more prizes and cash prizes this year the displays from districts outside Santa Cruz county will be larger and greater than ever. The premium list is now being prepared and will be ready to announce very soon.

Additional space has been provided for this year, the large auditorium constructed especially for the purpose of housing the annual having proven entirely inadequate.

Last year's exhibit consisted of twenty-six car loads of six hundred forty boxes each—a low estimate—one hundred forty apples to the box, or three million, two hundred fifty-five thousand, two hundred eighty-three apples, more than ever exhibited at any show in the world. Allowing each apple a diameter of three inches and placed end to end, the fruit would have reached from Watsonville to San Francisco and across the bay to

State Fair

The State Fair advertisement appears in this issue of the Press. Our readers will notice it presents an extensive and very attractive program. It is asserted, and no doubt justly, that the general industrial features and the livestock department will be by far the best ever assembled in this state.

This is in the line of a fair as it ought to be. The Directors, however, seem not to be contented with having worked up the big fair proper, but are putting on one of the most attractive and spectacular programs of free attractions that has ever been seen on a like occasion in California. They are not only duplicating, with some improvements, the fireworks, flying machines and wild west features that drew such big crowds last year, but they have added military drills, chorus singers and nightly horse-shows in the big amphitheater especially prepared for the purpose. It does certainly seem that the visitor to the fair this year will get his money's worth, as we are assured there will be something doing every minute and something for everybody.

We are glad to see the management waking up to the importance of properly exploiting this big state institution and we shall hope to see the good work go on until the benefits of the State Agricultural Society and its annual fair are felt in every part of California, and the institution becomes representative of all the state and sections and the industries thereof.

Berkeley.

Feature exhibits this year will be more numerous than ever and already demands for space from outside growers is being received.

Congregational Church

Union Meeting in Evening—Dr. Oakley Will Preach and Mrs. Pixley Will Sing

The Rev. E. C. Oakley, D. D., of San Mateo, will speak at the Congregational church next Sunday, both morning and evening. Mr. Atkinson will preach at San Mateo.

The Methodists will meet with the Congregationalists in a union meeting in the evening. Mrs. Therese Oliver-Pixley of San Jose will sing "Consider and Hear Me," by Woller.

C. E. meeting will be held at 7 o'clock instead of 6:30, Miss Winnie Fabinger, leader. Evening Service at 8 o'clock.

Old "Dolly" Dead

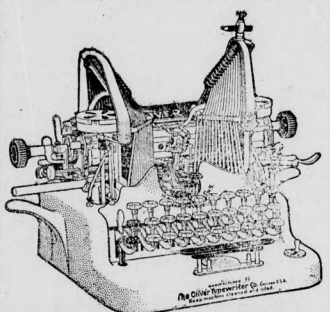

Dolly, the faithful old gray horse which has done service for the family of John F. Duncan for the past seventeen years, died suddenly last Friday night at Mt. Hermon. Mr. John Carter had driven the horse there that day. In the night he heard a groan from the barn and upon investigating found the animal dead.

"Dolly James Duncan," as members of the family sometimes called the horse, was 22 years old and was purchased from C. W. James who is now with Jos. H. Rucker, San Jose. At that time Mr. James was county secretary of the Y. M. C. A. and used the horse in his travels about the county. Faithful old Dolly will be greatly missed by many in this community. She was buried at Mt. Hermon.

Moved to Palo Alto

Easton Carter began his new duties at Palo Alto last Tuesday. His father moved the household goods over on Wednesday. Mrs. Carter is detained at the home of her father, John F. Duncan, because of an injury on the shin as the result of a fall from a peach tree last Friday. On Sunday the wound had begun to assume a dangerous appearance and Dr. Blanchard was called.

"Yale" Fruit Press

A Handy Thing for the Home

Now that summer is come and the fruit season is upon us, every woman who does her own preserving needs a fruit press as a time-saver. She will find it simply invaluable for making all sorts of jams, jellies, grape juice and cider, and she will have much better luck with her sweets than by using the old method of straining through a bag and other old-time methods. They come in two, four and eight-quart sizes; to suit the needs of large or small families, and can be clamped onto any table. They are almost indestructible as the presses are made of plated steel and iron. The thought of having fresh cider on the table every day in the fall should delight every household, particularly if it can be done with such a small amount of labor. Fruit jellies made with this press are absolutely clear and every drop of juice is extracted from the fruit, thus proving how economical such a kitchen utility really is. With such a help as this no housekeeper can dread preserving time.
